

BOP.BAS.310 Operating lights

Regulation (EU) 2018/395

Balloons operated at night shall be equipped with all of the following:

1. an anti-collision light;
2. a means to provide adequate illumination for all instruments and equipment essential to the safe operation of the balloon;
3. an independent portable light.

AMC1 BOP.BAS.310 Operating lights

ED Decision 2018/004/R

ANTI-COLLISION LIGHTS AND ILLUMINATION FOR INSTRUMENTS AND EQUIPMENT

1. An acceptable means of compliance for free manned balloons should be the anti-collision light required for VFR at night approved in accordance with [CS-31HB/CS-31GB](#) or with the applicable provisions for hot-air airships.
2. A means of providing adequate illumination to instruments and equipment essential to the safe operation of the balloon may be an independent portable light.

[BOP.BAS.315 Flight and navigational instruments and equipment](#)
