

# CS 31GB.37 Fasteners

*ED Decision 2011/012/R*

1. Fasteners (e.g. bolts, pins, screws, karabiners) used in the structure must conform to approved specifications.
2. Locking methods must be established and documented.
3. Unless a joint is free from relative movement, secondary locking means must be used.
4. Self-locking nuts may not be used on bolts that are subject to rotation in service.

## AMC 31GB.37(a) Fasteners

Approved specifications in the sense of these requirements are the standards described in the [AMC 31GB.33\(b\)](#).

→ [CS 31GB.39 Protection of parts](#)
